

Dear FDA, **MONEY AND SOCIAL STATUS IS OUT**
I am writing to express my concern over the FDA's regulation of **The W/ 1-33 USA**
genetically engineered (GE) food, to ask that the agency's current **WINDOW IN**
policies be changed, and to support all the points in **FAMAIN**
docket # 00P-1211/CPI, specifically:

- All GE foods should be labeled so I am informed and have a choice. **GE Food Mor:**
- GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing. **Times Petition**
- There should be a moratorium on GE foods and crops until long term studies show they are safe for human health and the environment. **c/o Organic Consumer Association NOW!**
